CHAPTER 9: REPORTS

9. REPORTS

This chapter will provide users with an overview of the following reporting features and report sections:

- **Reports Overview**
- **Accessing Reports**
- **Using the Search Criteria**
- **Generating Reports**
- **Premiums Daily Reports**
- **Assigned Notes Reports**
- **Management and Budgetary Reports**
- **HERMIT Support**

9.1 Reports Overview

In the Servicing Module, there are a variety of reports for various audiences. The reports are grouped so that users with the unique permissions will only see the reports that are pertinent to their user role. Users can create and save the reports as PDFs or Excel spreadsheets. Some reports cannot be viewed in Excel. The reports are additionally grouped in two active report types, based on the grouping of the data used to compile the report:

- Daily reports provide live data current through the day the report is run.
- Monthly reports pull data that was captured and stored at the end of the month.

The grouping of the data differs, however, from the range of time a report may cover. That is, a daily report may include data current through today for an entire week, year, or month. A monthly report, in contrast, will include data through the end of the month, but cover a week, year, or month.

Reports fall into four basic categories:

- Premiums
- Assigned Notes
- Management and Budgetary
- System Support

Access to reports is role-dependent and is granted at the category level.

9.2 Accessing Reports

To select search criteria for a report:

Step 1. On the **Home** screen, click the **Reports** tab.

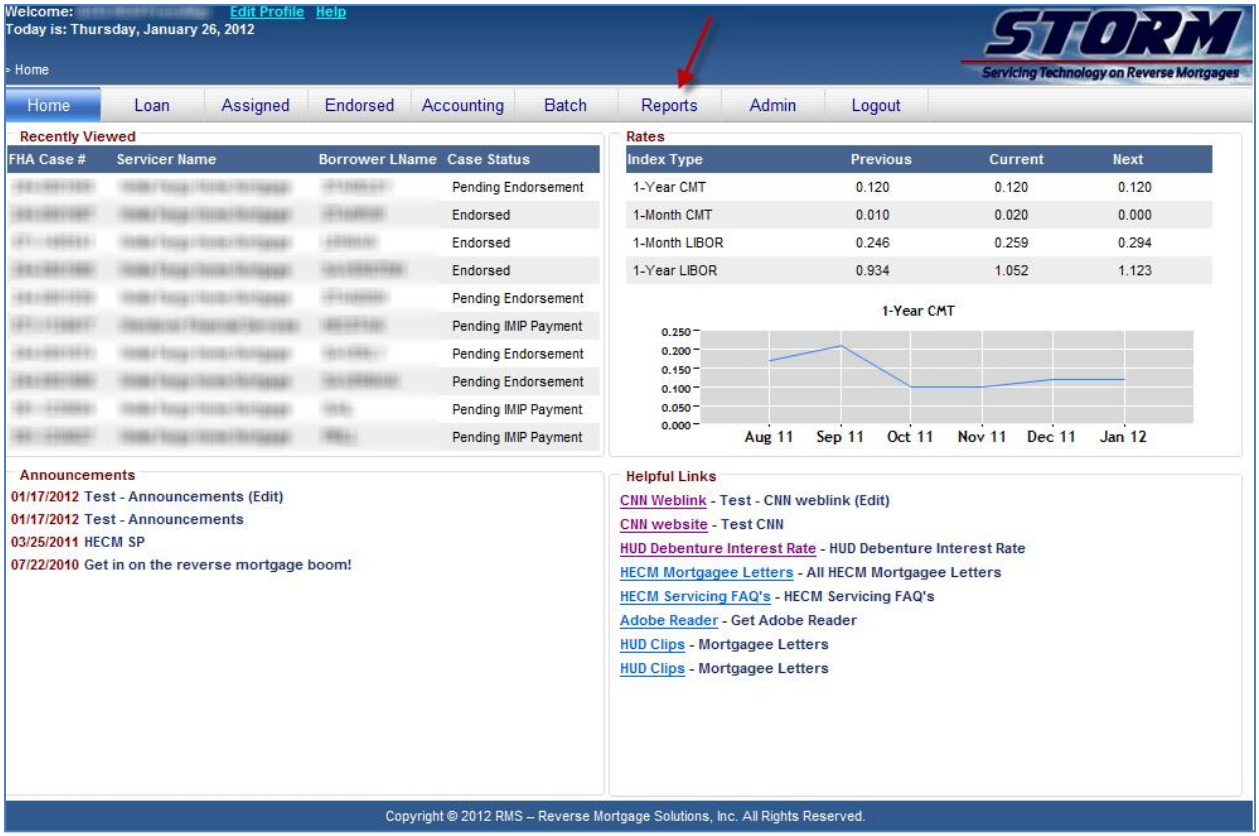

Figure 9-1: Reports Tab

Step 2. On the **Welcome to the Reports** screen, click the folder icon to view the list of reports for the relevant business area.

Figure 9-2: Expanded Reports Folder

Step 3. On the left side of the screen, select a report to query and the reports search screen will be displayed.

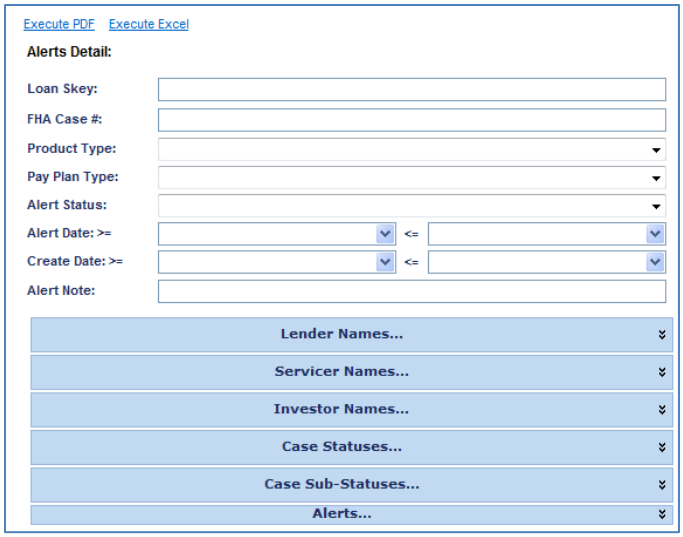

Figure 9-3: Reports Search Screen

9.3 Using the Search Criteria

You can use the search criteria after clicking on a report link.

To do this you will:

Step 1. Expand the search criteria by clicking on the down arrows in the screenshot below:

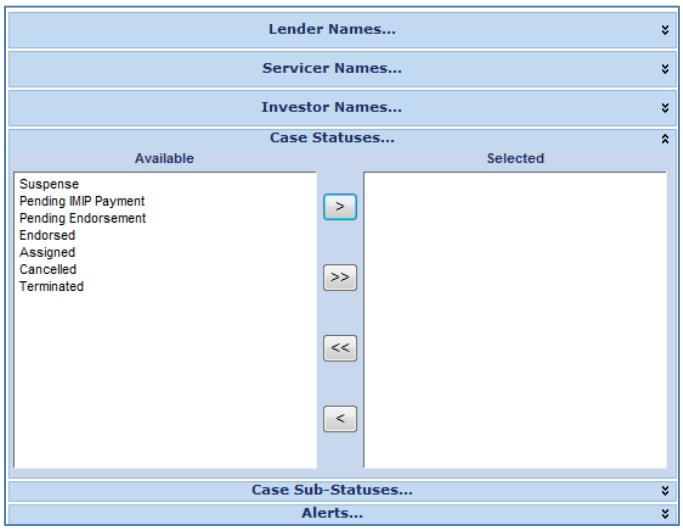

Figure 9-4: Reports Search Criteria Expanded

Step 2. To move a selection to the right, click on the item on the left side and click the single arrow pointing to the right. The opposite arrow can be used to move an item to the left.

Step 3. To select the entire list from the left and move it to the right, click the right double arrow. The opposite double arrow can be used to move the entire list to the left.

Step 4. To select several contiguous items on the list, hold down the shift key while making your selection and then click the arrow.

Step 5. To select non-contiguous items, hold down the CTRL key, click each item, and then click the arrow.

9.4 Generating Reports

Reports can be generated as PDFs or Excel spreadsheets.

To generate a report:

Step 1. Complete the search criteria for the report you would like to see results for.

Step 2. Select the **Execute PDF** link or the **Execute Excel** link (if available).

Figure 9-5: Execute PDF and Execute Excel Links

Step 3. Follow the screen prompts to save the file.

9.5 Premiums Daily Reports

The following daily reports are available for Premiums:

9.6.7 Export BANKO File

This file tracks the death and bankruptcy activity on the HECM loan portfolio serviced by HUD. The screenshot of the export file was intentionally left out, because all the data fields within the file are Personally Identifiable Information (PII).

To generate this report:

Step 1. Click on the **report link** on the left menu and the **Report Search** screen is displayed.

For the selected criteria, the following fields are displayed:

FHA Case#, First Name, Middle Name, Last Name, Suffix, SSN/Tax ID, Address, City, State, Zip Code, Agreement Date, Product Code.

9.6.8 Export FARETS File

This file, First American Real Estate Tax Service (FARETS) tracks delinquent property tax activity on the HECM loan portfolio serviced by HUD. The screenshot of the export file was intentionally left out, because all the data fields within the file are Personally Identifiable Information (PII).

To generate this report:

Step 1. Click the **Export FARETS File** link to get a default file that includes all the tax delinquent properties. If you enter a date range, the exported file will only include tax delinquent properties tracked within this period of time.

Step 2. For the selected criteria, the following fields are displayed: FHA Case #, Borrower Name, Property Address, and Parcel #.

Figure 9-32: Monthly Cohort Summary Report

To generate this report:

Step 1. Click on the **report link** on the left menu and the report search screen will display.

Step 2. To narrow the results of your report, you can filter by:

- Selecting a month and year from the **Reporting Period** dropdown box (the current month end is defaulted as the reporting period).

Step 3. Click the **Execute PDF** or **Execute Excel** link.

For the reporting period you selected, this report shows: The cumulative number of loans, the maximum claim amount, for each of the cohort year until the fiscal year; the number of loans, the maximum claim amount, and average per loan for the fiscal year; and the number of loans, the maximum claim amount, and outstanding balance for the current reporting month. For each of these time frames, the report totals each of these amounts and segregates by the fund code.

9.7.2 Monthly Portfolio Activity

The Monthly Portfolio Activity Report enables authorized users to view the detailed loan count and loan balance for each month for the selected fiscal year.
