

## **Notification of Fannie Mae's Participation in PowerSaver**

The U.S. Department of Housing and Urban Development and Fannie Mae have reached agreement in a cooperative effort for the implementation of the FHA PowerSaver Program (PowerSaver). Fannie Mae will now purchase FHA PowerSaver loans from Fannie Mae approved seller-servicers.

Fannie Mae's participation in this initiative provides liquidity to PowerSaver approved lenders by creating a secondary market outlet. Ultimately, this cooperative effort will facilitate financing opportunities for consumers seeking to make energy-efficient improvements to their homes.
