SPEARS Update: v 2.0 Released

The SPEARS v2.0 release has been implemented. This release includes major updates and restructuring of the HUD 60002 Form application.

Features incorporated in this release include:

- Ability for grantees that did not trigger Section 3 obligations to submit streamlined reports
- Ability for grantees to view/edit/delete previous reports submitted
- Ability for grantees to request report deletion or to unlock reports for editing and resubmission
- Ability for grantees to submit reports by Program Area instead of individual Program Code
- Ability for grantees to start a report and complete it at a later date
- Ability for grantees to see unreported disbursements to assist with tracking which reports remain due to HUD
- Ability to view individual or line item LOCCS disbursements included in Program Area funding
- Ability for HUD FHEO staff to manage reports submitted by agencies, view the reports and view an agencies' unreported disbursements
