

CIRCUMSTANCES WHEN OCCUPANT RELOCATION IS NOT REQUIRED

- ❑ Treatment will not disturb lead-based paint, dust lead hazards, or soil lead hazards.
- ❑ Treatment of the interior will be completed within one period in eight daytime hours, the site will be contained, and the work will not create other safety, health, or environmental hazards.
- ❑ Only the building's exterior is treated; the windows, doors, ventilation intakes, and other openings near the worksite are sealed during hazard reduction activities and cleaned afterward; and a lead-free entry is provided.
- ❑ Treatment will be completed within five calendar days; the work area is sealed; at the end of each day, the area within 10 feet of the containment area is cleared of debris and cleaned; at the end of each day, occupants have safe access to sleeping areas, bathroom, and kitchen facilities; and treatment does not create other safety, health, or environmental hazards.
- ❑ HUD has advised that the relocation of elderly occupants is not typically required, so long as complete disclosure of the nature of the work is provided and informed consent of the elderly occupant(s) is obtained before commencement of the work. (See "Interpretive Guidance—The HUD Regulation on Controlling Lead-Based Paint Hazards in Housing Receiving Federal Assistance and Federally Owned Housing Being Sold," 9/21/00 edition.)
