

We have received your comments regarding the functionality after the HUD Enforcement Management System (HEMS) 1.1 release for system changes. You certainly made some very good observations. We have addressed many of your concerns with the release of HEMS 1.2.

Effective 2/16/2016, the following feedback items were incorporated in HEMS release 1.2:

Description	
1	Added search features to find cases for dual filing
2	CHR(39) entries replaced with single quotes
3	Open cases for assessors will not show filed cases
4	Tax Credit designation added to complaints
5	Interviews sorted in case prints
6	FHAP Managers able to delete inquiries
7	Complainant representatives appear in complaints
8	Spaces removed after city in addresses in letters
9	Table structure of FIR removed
10	Interviews sorted by date
11	Organization will be displayed if no first/last name entered
12	Documents with capitalized .PDF allowed
13	Ability to zero out the investigator, conciliator or monitor
14	Ability to reopen a FHAP case
15	FIR and Determination generation problems corrected
16	Remove birthdate displayed on complaint
17	Add county for American Samoa
18	Filter other authority search on open cases/reviews
19	Allow relief to be entered without closing a case
20	Date entry error corrected
21	Apartment number added in case print
22	Prevent cases being closed without a closure reason entered
23	Resolve problems created by conciliation entries without parties selected
24	CK Editor error in Chrome
25	Remove the requirement for addresses for witnesses
26	Correct the format of the represented party in representative letters
27	Correct the age on closed casee reports
28	Reactivated cases appear in the correct office in reports
29	FHAP Cases should be considered closed if there is a FHAP closure date
