- 1.2.6 The system shall automate the creation of the *Income Discrepancy Adhoc Report* excel files via batch job which PIH requests monthly for OMB reporting and trend analysis **(Req ID: 1979).**

1.3 Defects

1.3.1 Email Received (**Defect ID 1026**)

1. There are several users on the User Certification page with a Certify User button. When the button is clicked, the status of the user does not change to Certified User. Yet the Clean-up User Certification system records show that the user is certified and re-certified.
2. There are 40+ users that are displayed on the User Certification page without a Certify User Button and last certification date listed as April 2012. The user is certified but shows up as pending certification.
3. The User Certification Report shows that the 45 users are pending verification but are listed as Certified Users with an April 2012 last certification date. This is conflicting and confusing and needs to reflect the correct last certification date.

1.3.2 PIH Summarization (**Defect ID 1171**)

When determining tenant with PIC Alternate ID, only SSN that starts with uppercase 'H' are considered; SSN that starts with lowercase 'h' should also be considered.

1.3.3 Email Received: Deceased Tenant Report: No Data found error received when trying to access deceased tenant report for HUB, FO or field office level data (**Defect ID 1178**)

1.3.4 PIH_P181_0030_EIV_SSA_Nightly_Process has been failing in production as a result of not identifying MTW tenant information uniquely. (**Defect ID 1179**)

1.3.5 The downloaded Deceased Tenants Report at the PHA level, the tenant information is not displayed in Excel. Instead the report lists "No Deficiencies Exist". The tenant level information is displayed on the screen. (**Defect ID 1180**)

1.3.6 EIV throws an error when trying to run the Deceased Tenant report nationwide. (**Defect ID 1181**)

1.3.7 Identity Verification Report - State: Household Member Statistics Report: When clicking on the State link on the Household Member Statistics Report tab, the system returns no results. (**Defect ID 1183**)

1.3.8 Deceased Tenant Report: Household Members Deceased less than 6 Months and Household Members Deceased more than 6 Months fields' counts are reversed. (**Defect ID 1184**)

1.3.9 Administer Debts Module: When deleted records are assigned to more than one PHA, REAC-EIV System Administrator cannot reinstate them. (**Defect ID 1188**)

1.3.10 Printer Friendly Version when printed is printing in small font in Income Reports (check Reexamination month). (**Defect ID 1190**)
