

Explanation of Calendar Year (CY) 2015 Interim Obligation (July and August)

Public Housing Operating Fund Subsidies

The Department has obligated funds for operating subsidies for the months of July and August, 2015 in accordance with the information below. This interim obligation was based on the interim eligibility determined after processing the 2015 Operating Subsidy forms submitted. Based on the 2015 interim eligibility adjustments have been made to the July and August obligation amounts to ensure that projects that have received excess or under funding in previous months' formula amounts obligated are cumulative adjusted in the current calculation of funding. The next round of funding is expected to be made available in eLOCCS no later than September 1, 2015, and will be based on updated eligibility derived from processing the Operating Subsidy HUD-52723 forms.

Proration Levels

The Department undertakes a conservative methodology to determine proration levels prior to establishing final eligibility for all projects. For July and August funding, the Department used the initial 2015 eligibility to derive an interim proration level of 85.46%. The proration rate for September funding will also be determined utilizing the eligibility derived from processing all the Operating Subsidy forms submitted at that point. The proration rate may continue to fluctuate during the year based on the submission of new and revised Operating Subsidy forms, until the final proration rate can be determined based on the final eligibility established for the calendar year 2015 funding cycle.
