## **PROJECT DESCRIPTIONS**

### **Lead Hazard Control Grant Programs**

#### **CALIFORNIA**

The **San Diego Housing Commission, CA** will receive \$3,000,000 in Lead Hazard Control funds and \$100,000 in additional funds to promote healthy homes initiatives to significantly reduce lead hazards in low-income housing units and begin to integrate healthy homes principals into their existing lead programs. The San Diego Housing Commission will evaluate 250 homes for lead-based paint hazards, eliminate lead hazards in 200 homes, conduct outreach and education at 13 community events, and provide training to 150 individuals. The City of San Diego will partner with Environmental Health Coalition, County of San Diego CLPPP, Southeast Redevelopment Corp., urban Corps-San Diego County, La Maestra Community Health Center, and the American Lung Association in this program. Contact: Lyle Knudson, Sr. Program Analyst (Program Manager), (619) 578-7521 or email [lyle@sdhc.org](mailto:lyle@sdhc.org).

#### **COLORADO**

The **City and County of Denver, CO** will receive \$2,026,698 in Lead Hazard Control and healthy homes initiative funding to promote healthy homes initiatives to undertake a comprehensive program to identify and control lead-based paint hazards in eligible privately owned rental or owner-occupied housing in identified high risk communities with substantial number of identified and potentially lead-exposed children. The City and County of Denver will evaluate lead hazards in 120 homes, conduct outreach and education for 2500 people, and provide training to 2500 individuals. The City and County of Denver will partner with the Northeast Denver Housing Center, the Community Housing Development organization and Community Development Associate in this program. Contact: Christopher Smith, Housing Program Manager, 720-913-1567 or email [christopher.smith@denvergov.org](mailto:christopher.smith@denvergov.org)

#### **CONNECTICUT**

The **City of Bridgeport, CT** will receive \$3,099,996 in Lead Hazard Control and healthy homes initiative funding to promote healthy homes initiatives to reduce hazards for children with a blood lead level of 10µg/dl or above which will trigger a custom plan for 210 units using interim or standard treatment measures. In 30 of the units, property owners will be given training, work plans, and incentives to remediate the lead hazards themselves. This “Rebate Program” will create an educated cadre of homeowners to sustain the ideals of the Program for years to come. The City of Bridgeport will partner with Bridgeport Parent Center; United Illuminating; The Workplace Inc.; Action for Bridgeport Community Development; Greater Bridgeport Community Enterprises, Inc.; Bridgeport Health Department’s Childhood Lead Prevention Program and the Bridgeport Fire Department. Contact: Renu Gupta, Central Grants and Community Development on 203-576-7732 or email [Renu.Gupta@bridgeportct.gov](mailto:Renu.Gupta@bridgeportct.gov).

## **GEORGIA**

The **City of Atlanta Department of Planning and Community Development's Office of Housing, GA** will receive \$2,000,000 in Lead Hazard Control funds and \$100,000 in additional funds to promote healthy homes initiatives to perform lead hazard control work to make units lead safe throughout the target area and reduce lead hazards and provide healthy homes interventions in 150 units. The City of Atlanta will evaluate 175 units for lead hazards, eliminate lead hazards in 150 homes and provide training to 40 individuals for lead certification and green jobs. The City of Atlanta will partner with the Center for Working Families, Senior Connections, Fulton County Health Dept., and the Coalition to End Childhood Lead Poisoning, South Face, City of Atlanta Office of Housing, Georgia Dept. of Community Health, Emmaus House, and Pittsburgh Community Improvement Association in this program. Contact: Evelyn Nu'Man, Director Office of Housing, 404-330-6390 or email [ENUMAN@ATLANTAGA.GOV](mailto:ENUMAN@ATLANTAGA.GOV)

The **Georgia Department of Community Health, Atlanta, GA** will receive \$2,100,000 in Lead Hazard Control and healthy homes initiative funds to undertake a comprehensive program to identify and control lead-based paint hazards in eligible privately owned rental or owner-occupied housing in identified high risk communities with substantial number of identified and potentially lead-exposed children. The Georgia Department of Community Health will evaluate 180 homes for lead hazards, eliminate lead hazards in 120 homes, conduct 12 outreach and education events reaching out to 5,000 people, and provide training to 40 individuals. The Georgia Department of Community Health will partner with Georgia Childhood Lead Poisoning Prevention Program, City of Savannah Department of Housing, Community Housing Services Agency, Inc., Georgia Environmental Protection Division, Savannah State University, and Harambee House in this program. Contact: Forrest Staley, GACLPPP Program Director (Grant's Proposed Program Manager), 404-656-2459 or email [flstaley@dhr.state.ga.us](mailto:flstaley@dhr.state.ga.us).

## **ILLINOIS**

The **County of St. Clair, IL** will receive \$1,587,581 in Lead Hazard Control funding to assess and remediate lead based paint hazard in treat 120 homes. The County will partner with the Illinois Environmental Protection Agency to engage in community education, marketing, outreach and recruitment for this project. Contact: Vince Kwiatkowski, Manager Community Development Division, 618-825-3212 or email [vincek@co.st-clair.il.us](mailto:vincek@co.st-clair.il.us)

## **IOWA**

The **City of Dubuque, IA** Department of Community Development will receive \$3,099,948 in Lead Hazard Control and healthy homes initiative funds to perform lead hazard control work to reduce the number of lead poisoned children throughout the target area through evaluation of 255 units for lead hazards and eliminating lead hazards in 185 homes. The City will provide training to 70 individuals for lead certification. The City of Dubuque will partner with Washington Neighborhood Development Corp., VNA, Housing and Community Development Dept. Dubuque Food Pantry, Operation New View, HEART Program and Key Line Bus Service in this program. Contact: David Harris, Department Manager, 563-589-4239 or email [dharris@cityofdubuque.org](mailto:dharris@cityofdubuque.org).

## **KANSAS**

The **Kansas Department of Health and Environment, Topeka, KS** will receive \$3,100,000 in Lead Hazard Control and healthy homes initiative funds to eliminate childhood lead poisoning and safeguard the health of Kansas families by supporting healthy housing initiatives. The State will evaluate 300 homes for lead and healthy homes hazards, eliminate lead and healthy homes hazards in 280 homes, conduct 90 outreach and education events, and provide training to 500 individuals. The Kansas Department of Health and Environment will partner with the City of Wichita Housing and Community Services Department, the City of Topeka Housing Services, Wyandotte County Unified Government, Community Housing Services Wichita, Green Initiatives of Kansas, and St. Marks Methodist Church in this program. Contact: Shannon Steinbauer, Program Director, 785-256-3229 or email [Steinbauer@kdheks.gov](mailto:Steinbauer@kdheks.gov).

## **MASSACHUSETTS**

The **City of Brockton, MA** will receive \$2,000,000 in Lead Hazard Control funds and \$100,000 in additional funds to promote Healthy Homes Program, totaling \$2,100,000 funds to eliminate lead based paint hazards and to promote healthy homes initiatives. The funds are to create lead safe housing for the residents of Brockton and its contiguous towns. This request includes healthy homes funding to train lead, weatherization and healthy homes program staff as Healthy Housing specialists and to develop a "one touch" approach to home inspections. The City will evaluate 125 for lead hazards; eliminate lead hazards in 125 homes, conduct outreach and education 300 events, and train 90 individuals. The City will partner with the state Childhood Lead Poisoning Prevention Program and Self Help, Inc. in this program. Contact: Carol Murray, Director of Planning, 508-588-4049 or email [carolm@selfhelpinc.org](mailto:carolm@selfhelpinc.org).

The **City of Lawrence, MA** will receive \$3,000,000 in Lead Hazard Control funds and \$100,000 in additional funds to promote healthy homes initiative, totaling \$3,100,000 funds to eliminate lead based paint hazards and to promote a healthy homes program. The City will evaluate 200 homes for lead-based paint hazards, eliminate lead hazards in 200 homes and concurrently address other housing related hazards in 50 unit, conduct outreach and education for 48 events, reaching 10,000 people, and provide training to 120 individuals. The City will partner with Greater Lawrence Community Action Council, Inc., Lawrence General Hospital, Institute for Environmental Education, Lawrence Housing Authority, Youth Build, Department of Public Health/CLPPP and Mass Housing in this program. Contact: Stephen D. Vega, Director, 978-620-3523 or email [steve\\_vega@msn.com](mailto:steve_vega@msn.com).

## **MICHIGAN**

**Saginaw County, Saginaw, MI** will receive \$3,000,000 in Lead Hazard Control funds and \$100,000 in additional funds to promote Healthy Homes Program, totaling \$3,100,000 funds to eliminate lead based paint hazards and promote a Healthy Homes Program to produce at least 240 units of lead safe housing within the City of Saginaw with integrated green and healthy home, weatherization, energy efficiency and general rehab services. Saginaw County will evaluate 300 for lead and healthy homes hazards, conduct outreach and education to at least 5,063 individuals

through a combination of community events (100), and provide training to 125 individuals. Saginaw County will partner with First Ward Community Center (FWCC); Michigan State University Extension (MSUE) and other county and local governmental agencies, parent groups, grassroots organizations, faith-based initiatives, community development corporations, minority small business owners and for-profit corporations in this program.
